SUMMARY

I have 1+ year of commercial experience as a Data Analyst in IT. My background combines analytical work (crypto, data, holdem poker), engineering (automation systems), and leadership (military command), which allows me not only to analyze data but to understand real-world impact and risk behind it. I am eager to gain knowledge in data science and neural networks.

WORK EXPERIENCE

DATA ANALYST

CRYPTOGROUP FINTECH SERVICES | 2025 - PRESENT

- Conducted in-depth analysis of cryptocurrency markets, including price trends, volatility, and trading volumes
- Evaluated investment opportunities using data-driven approaches and market indicators
- Built dashboards and reports to track portfolio performance and key market metrics
- Maintained an average monthly return of ~8% by adapting strategies to both bullish and bearish market conditions

PET-PROJECTS

Simple Revenue Distribution Analysis, March 2026

Tools: DBeaver (PostgreSQL), Tableau. Based on SaaS revenue data set.

Description: Designed and delivered a minimalist, user-focused dashboard enabling detailed analysis of revenue distribution across locations and products, with ARPPU implemented as a key monetization metric.

Result: Developed a dashboard with calculated KPIs and short resume

Inflation and Consumer Price Index (CPI) analysis April 2026

Since April 2026, I have been working on a project.

Tools: DBeaver (PostgreSQL), VSCode (python), Tableau. Based on dataset from data.gov.ua open source.

EDUCATION

Igor Sikorsky Kyiv Polytechnic Institute

Department of automation of electromechanical systems and electric drives.
